5 Steps for Effective Customer Calling

#1

Prepare yourself

- Gather a notebook and pen.
- Be prepared to speak in a clear, steady voice.
- Don't rush through your conversation or message.

#2

Connect the call

- Open Relate and find the customer.
- With your headset on, click the "Outbound Call" button.
- Be ready to speak.

#3

Talk to the customer

- Introduce yourself and state that you are calling from Acme Insurance.
- Use judgement on best pleasantries to use.
- Explain why you are calling.

! When leaving a message include the same information.

#4

Take a message

- If the customer needs more help, take a detailed message.
- Tell the customer you will give the message to someone else on the team and they will return the call.

#5

End the call, summarize, & deliver

- When the call comes to an end, thank the customer for their time.
- Say "good-bye" and hang up.
- Note the interaction in Relate.
- Deliver any messages if needed.
